CONTENTS OF VOLUME 362

May 1985

ANDREWS P.L.R., ROTHWELL N.J. & STOCK M.J. Effects of subdiaphragmatic vagotomy on energy balance and thermogenesis in the rat. 1

LARGE J. & TYLER K.R. Changes in capillary distribution in rat fast muscles following nerve crush and reinnervation. 13

MOSER Hans Intracellular pH regulation in the sensory neurone of the stretch receptor of the crayfish (*Astacus fluviatilis*). 23

TAKAI A., TOKUNO H. & TOMITA T. Effects of readmission of substrate on the membrane potential in glycogen-depleted guinea-pig taenia coli. 39

CUNNINGHAM J.R. & NEAL M.J. Effect of excitatory amino acids on γ-aminobutyric acid release from frog horizontal cells. 51

FUKAI Kiyoko & FUKUDA Hiroyuki Three serial neurones in the innervation of the colon by the sacral parasympathetic nerve of the dog. 69

CONNER J.D., DETWILER P.B. & SARTHY P.V. Ionic and electrophysiological properties of retinal Müller (glial) cells of the turtle. 79

FERRÉ J.P. & RUCKEBUSCH Y. Myoelectrical activity and propulsion in the large intestine of fed and fasted rats. 93

KRAMER Richard H. & ZUCKER Robert S. Calcium-dependent inward current in *Aplysia* bursting pace-maker neurones. 107

KRAMER Richard H. & ZUCKER Robert S. Calcium-induced inactivation of calcium current causes the inter-burst hyperpolarization of *Aplysia* bursting neurones. 131

KUBOTA M., NAKAMURA M. & TSUKAHARA N. Ionic conductance associated with electrical activity of guinea-pig red nucleus neurones *in vitro*. 161

GRANZIER Henk L.M. & POLLACK Gerald H. Stepwise shortening in unstimulated frog skeletal muscle fibres. 173

GOLDMAN M.D., LOH L. & SEARS T.A. The respiratory activity of human levator costae muscles and its modification by posture. 189

FITCH Sara & MCCOMAS Alan Influence of human muscle length on fatigue. 205

AALKLJÆR C. & MULVANY M.J. Effect of ouabain on tone, membrane potential and sodium efflux compared with [^{3}H]ouabain binding in rat resistance vessels. 215

DODSON Barbara A., FURMANIUK JR Zygmund W. & MILLER Keith W. The physiological effects of hydrostatic pressure are not equivalent to those of helium pressure on *Rana pipiens*. 233

DEANE R. & SEGAL M.B. The transport of sugars across the perfused choroid plexus of the sheep. 245

SAFWATE A. Urinary sodium excretion and the renin–aldosterone system in new-born calves. 261

PULLEN R.G.L. Effect of ventricular tonicity upon cerebrospinal fluid production in rabbits. 273

DENTON D.A., NELSON J.F. & TARJAN E. Water and salt intake of wild rabbits (*Oryctolagus cuniculus* (L)) following dipsogenic stimuli. 285

BLOOM S.R. & EDWARDS A.V. Effects of certain metabolites on pancreatic endocrine responses to stimulation of the vagus nerves in conscious calves. 303

BLOOM S.R. & EDWARDS A.V. The role of the sympathetic system in the control of insulin release in response to hyperglycaemia in conscious calves. 311

TANAKA Chikako & TANIYAMA Kohtaro Substance P provoked γ-aminobutyric acid release from the myenteric plexus of the guinea-pig small intestine. 319

ELLIS David Effects of stimulation and diphenylhydantoin on the intracellular sodium activity in Purkinje fibres of sheep heart. 331

DHILLON D.S. & HARVEY A.L. Acetylcholine receptors of skeletal muscle cells in cultures of rat thymus glands. 349

ARTALEJO A.R., GARCÍA A.G., MONTIEL C. & SÁNCHEZ-GARCÍA P. A dopaminergic receptor modulates catecholamine release from the cat adrenal gland. 359

BOLZ Jürgen, FRUMKES Thomas, VOIGT Thomas & WÄSSLE Heinz Action and localization of γ-aminobutyric acid in the cat retina. 369

BOLZ Jürgen, THIER Peter, VOIGT Thomas & WÄSSLE Heinz Action and localization of glycine and taurine in the cat retina. 395

COLES J.A. & ORKAND R.K. Changes in sodium activity during light stimulation in photoreceptors, glia and extracellular space in drone retina. 415

HULLIGER M., NORDH E. & VALLBO Å.B. Discharge in muscle spindle afferents related to direction of slow precision movements in man. 437

KOOS B.J. Central stimulation of breathing movements in fetal lambs by prostaglandin synthetase inhibitors. 455
